DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rothschild et al US Patent 6,152,824. A reading of Rothschild by an artisan of ordinary skill teaches and discloses each and every claim element of the instant application. Columns 3-5 disclose a logon application; column 6 discloses services offered to the user including buildings lobbies, game rooms, chat functions, games, etc. Column 7 discloses a ping protocol. Columns 9-11 disclose the game programs and protocols, lobbies and chat rooms.

Citation of Pertinent Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Cuomo et al '840 discloses a multi user game lobby and game session

Jacobus '008 discloses a distributed computing environment

Burridge '788 discloses a collaborative web page

Gibbs '813 discloses a massively multi-user application

Harvey et al '629 discloses a information and application distribution system

Art Unit: 3713
